NEWSPAPER

At Het Financieele Dagblad, you engage directly with the leaders of the Dutch business community.

Our audience comprises CEOs, CFOs, supervisory directors, and other key decision-makers who engage in the most critical decisions within Dutch business on a daily basis. They read Het FD at the breakfast table, on the train, or in the office, not for fleeting headlines, but for valuable insights.

The FD is not a transient moment; rather, it is a space where decision-makers genuinely invest time, including for your brand. It exists within an atmosphere of trust, authority, and substance.

The Influence of Print:

- Exclusive access to C-level executives
- Intense focus and reading duration
- A reputable and esteemed setting for your brand.
- Demonstrated efficacy for B2B and luxury brands

The FD is published six days a week (Monday to Saturday). Your advertisement will be featured in both the print and digital editions, complete with click-through options. Seeking a more in-depth narrative? Through branded content, you can convey your brand story in the tone and style of our journalism: credible, relevant, and central to Dutch business. On Saturdays, the FD releases FD Persoonlijk: our premium lifestyle magazine, which offers its own advertising opportunities.
